

2014 EUmbRElla Meeting

**Course on latest developments
in Inflammation research**

Nantes, November 13th and 14th, 2014

Thursday 13th November 2014

Session I

Targets and tools for inflammation research

Chairpersons: Attila Mocsai and Sylvaine You

◆ 9:00	Welcome speech	Bernard Vanhove Nantes, France
◆ 9:15	Gene-specific nucleases for the generation of new genetically-modified animals models	Ignacio Anegon Nantes, France
◆ 9:45	Humanized mice as preclinical models in immunology	Nicolas Legrand Paris, France
◆ 10:15 <i>Coffee break / Posters</i>		
◆ 10:45	Different approaches to test leukocyte migration <i>in vitro</i> and <i>in vivo</i>	Markus Sperandio Munich, Germany
◆ 11:15	Targeting Src-family kinases for the treatment of autoimmune disease	Gary Schieven Princeton, USA
◆ 12:00 <i>Lunch and poster session</i>		

Session II

Physiopathology of inflammatory disorders

Chairpersons: Nicolas Poirier and Alberto Mantovani

◆ 14:00	Chemokines in inflammation and resolution	Mauro Texeira Belo Horizonte, Brazil
◆ 14:30	Resolution of inflammation	Mauro Perretti London, UK

◆ 15:00 <i>Coffee break / Posters</i>		
◆ 15:30	Immunosuppression in ICU: from pathophysiology to treatment	Karim Asehoune Nantes, France
◆ 16:00	Role of IL-1 on CD4 Th9 polarization	François Ghiringhelli Dijon, France
◆ 16:30	<i>Eumbrella Summary reports:</i> <i>TARKINAID, TIMER and TRIAD</i>	Attila Mocsai Alberto Mantovani Bernard Vanhove
◆ 17:30 <i>End of the session</i>		
◆ 19:30 <i>Cruise dinner on the Erdre river</i>		

Friday 14th November 2014

Session III

Individual TIMER, TARKINAID and TRIAD meetings

Each consortium establishes its own timeline. The framework is:

◆ 9.00	Beginning of Individual meetings
◆ 10.30 <i>Coffee break</i>	
◆ 11.00	Individual meetings (following)
◆ 12.30 14:00 <i>Lunch and Departure</i>
